

GOOD NEWS FOR APPLICANTS

No more waiting until the office is open, until the phone lines are clear, being put on hold or waiting until you get home. You can now stay up to date with the status of your application 24/7 from any location through the World Wide Web via online Application Status Check. This web based check allows you to see whether your application has been processed, if additional information or documentation is needed to process your application and when your application is complete.

HERE'S HOW:

Within two weeks of submitting your application, you should have an assigned username and password. It should be provided to you in your initial letter from this office.

This will allow you to follow the progress of your application through the application status check link at our website. Just have your username and password ready and follow the instructions to see the current status of your application by clicking on the designated links.

If you do not yet have your username and password, you may still check the status by scrolling further down the page and answering the required security questions. This will allow you to proceed with the status check of your application, providing sufficient time has passed for it to be received and entered into the department's database.

Where can you find the link to perform this check?

Click this link: <https://ww2.doh.state.fl.us/mqaservices/login.asp?mult=&pass=Y>

It is also the first link in the mqalinks list on the left side of this website and is appropriately titled, Application Status Check.
